

# FINTECH

## With over 25 Years

of experience in abrasives production and application, FINTECH has grown into one of the largest abrasive converters in the United States. We set out in 1982 to give our customers the highest quality products at competitive prices with unmatched service and support. We fabricate belts, sheets, discs, rolls and other products from large jumbo rolls produced by some of the best manufacturers in the world. We have extensive experience with the application of the newest materials in coated abrasives, including aluminum oxide with special treatments, silicon carbide, zirconia and ceramics.

## FINTECH is at the forefront

of abrasive technology. Flexible production allows FINTECH to offer tailor-made products for any application. Our facility features the latest in automated machinery. This allows us to quickly and consistently manufacture high quality abrasives no matter how large or small any order may be.

## FINTECH is set apart

by unmatched service and technical support. We specialize in creating application solutions to meet your finishing needs. Our finishing and polishing expertise allows us to design custom solutions to virtually any problem that may arise on the production line. Creating a smooth, efficient operation for our customers is just as important as offering high quality products.
