

# NON-WOVEN

Our non-woven products are available in belts, rolls and discs to meet your specific application needs.

Hook and loop discs can be used for surface finishing, blending, deburring, and stock removal.

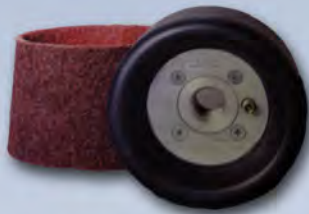

Finishing rolls can be used for light hand sanding and cleaning

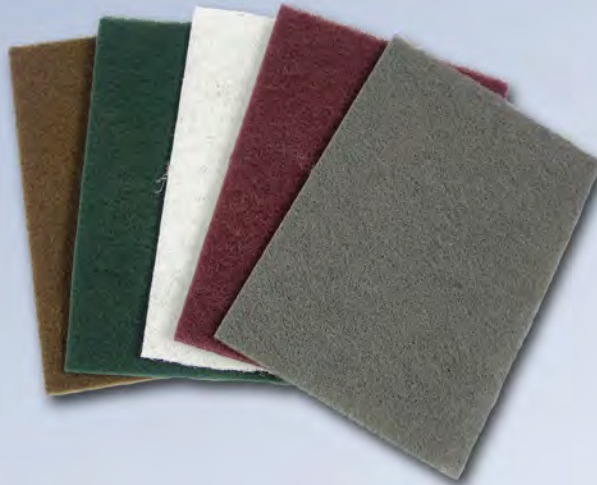

Available up to 37" wide.

File Belts

Pneumatic Drums

# HAND PADS

Non-woven hand pads are a great alternative to steel wool. They are a perfect solution for surface preparation, polishing, rust and paint removal, and sealer sanding.

# QUICK CHANGE DISC

Available in course, medium and fine for heavy deburring to final finishing. These offer quick and easy removal for less down time. Used on a variety of metals in automotive, industrial and aerospace applications.

Available in 1 1/2", 2", 3" and 5".

Holders available.

Eyelet stars also available for pipe and tube finishing.
