

# SPONGES

Sponges are the easy way to hand sand contours and tight spots.

In rolls you cut to size or perforated.

Available in course to super fine as well as in a variety of styles to meet your desired sanding needs.

Used on wood, metals, paints, drywall, autobody and more, these foam backed abrasives are ideal for hand sanding.

**Fintech** also offers abrasives with sponge backing in discs!

Orbital Sanders are available for all your sanding needs.

## BACK-UP & HAND PADS

Available for all your orbital sanders in PSA or velcro in all sizes.

**FINTECH** offers different flexes & hole patterns to fit your specific application.

Hand Pads are available in a wide variety of sizes and shapes for your hand sanding needs in PSA or Velcro.
